5 Factors to consider when choosing the most efficient vacuum cleaner for your home

Many people believe that an efficient vacuum cleaner is measured by a vacuum's voltage or power. The real performance of a vacuum cleaner is measured by dust pick-up. Creating effective dust pick-up is a matter of generating enough suction power. And this is an optimal combination of vacuum and airflow in the nozzle with high airspeed around the particles to be picked up. It's key to remember that an efficient vacuum cleaner consists of 5 good factors: tube/hose, motor, separator/filter system, suction power, and air speed.

"I want a vacuum that is powerful"

You need a vacuum with an efficient motor that combines airflow and airspeed for optimal suction of particles to be picked up. A powerful vacuum cleaner is judged by the sum of all it's parts from the nozzle to the motor and its filter.

"I want a vacuum that does not release dust back into the air."

The most efficient vacuum cleaners should have a sealed filtration system and a good HEPA filter so you can be assured that the dust that comes in the machine is not released back into the air.

"I want a vacuum tube/hose which is easy to handle and ergonomic in design"

Aerodynamically designed tube and hose are to minimize the pressure loss in through system. These parts play a key role in efficiency and ergonomics of the vacuum cleaner.

"I want a vacuum that does not overheat and is longer lasting."

Keeping your vacuum cleaner well maintained by changing the dust bag, emptying the dust bin and cleaning the filter periodically will help prevent overheating and will make sure your machine is always working in top condition.

"I want a vacuum with good dust pick-up."

The nozzle of a vacuum cleaner is where the dust pick up happens, you need to create an optimal combination of airflow and high air speed for good dust pick up, the right nozzle will help you get the cleaning job done more efficiently.

Questions to identify the perfect vacuum cleaner for you

[1] Choose the type of your place

- Small House (< 200 sqm) *Canister/Stick*
- Mid -Large House (> 200 sqm) *Canister/W&D*
- Townhome *Canister*
- Apartment/Condominium *Stick*

[2] Choose your type of Cleaning

- Precise Clean *Canister/W&D*
- Quick Clean *Stick*
- Spot Clean *Stick/Handheld*

[3] Identify your vacuum routine

- Everyday *Stick*
- 2-3 times a week *Canister/Stick*
- Once a week *Canister*

[4] Choose your vacuum format

- Bagless *Canister/Stick*
- Bagged *Canister/W&D*

[5] Identity your type of floor

- Hard Floor *Canister/Stick*
- Tile Floor *Canister*
- Carpeting *Canister*
- Mixed Hard/Tile Floor *Canister*
- Outdoor *W&D*

[6] Identify your vacuum area

- Also vacuum furnitures and curtains *Canister/Stick*
- Just the floor *Stick*

[7] Identify your personal lifestyles

- I suffer from respiratory allergies *Canister*
- I have pets *Canister/W&D*
- I have an infant/child *Canister*

What type have you chosen the most?

- Advanced cyclonic technology that enhances vacuuming performance
- Convenience and ease of use

Over 100 years of Vacuum Expertise and Innovations

Revolutionizing the cleaning industry, Electrolux has combined value for consumer needs with passion to deliver ground-breaking cleaning innovations to make for the perfect cleaning solution in homes all over the world since 1912.

It all began in 1912, when founder Axel Wenner-Gren launched the Lux 1, the company's first household vacuum cleaner. Since then, Electrolux has moved on to produce some of the world's most popular and innovative vacuum cleaners for all homes on a global scale.

For over 100 years of vacuum expertise, Electrolux builds its leading innovations around the valued consumers. With in-depth research, thoughtful designs, and strong consumer insights, Electrolux vacuum cleaners ultimately meet the needs of every household. Being consumer-centric is a key guiding principle to any of Electrolux's pioneering creations launched in the market. Electrolux identifies with its consumers because the products are flexible, convenient, beautifully crafted, and most importantly sustainable.

Over 100 years of Vacuum Expertise: Key milestones

In 1921, the first vacuum cleaner on runners – model V was launched. This was the first household vacuum cleaner worthy of the name, adapted for use in ordinary homes and served as the starting point from which all future design aspects of the modern vacuum cleaner was built on.

In 1964, the first new generation of vacuum cleaners, Luxomatic Z90 was launched with never before design features such as a cord winder, self-sealing paper dust bags, and a dust indicator that indicates when the bag was full. It quickly became a symbol of economic strength for the Electrolux Group and its' vacuum cleaner division.

In 2001, Electrolux put the first self-going vacuum cleaner on the market – the Trilobite. What makes the Trilobite unique is that it can navigate using ultrasound as well as turn itself off with automated recharge after the completion of every vacuum session. Measuring only 13cm high and a 35cm diameter, the Trilobite provided consumers with an incredible "hands-off" way to clean their homes.

In 2004, the cordless stick cleaner Ergorapido 2-in-1 was launched. Developed purely to fit the new wave of urban cleaning behaviors, the Ergorapido is the answer to all consumer needs by providing an instant and convenient cleaning. It was the first in a new global category of stick cleaners. With its' impeccable design it could easily be left as a display at home. Excelling conveniences, the Ergorapido offers the power of an upright vacuum and handheld in one. Later, the second generation of Ergorapido was released into the market in 2007.

In 2007, the Rapido, the world's first handheld vacuum cleaner with wheels was launched. This simple, innovative design allowed consumers to glide the vacuum over cleaning areas without damaging the surface. Simultaneously in this year the all new UltraSilencer Green vacuum was launched. To minimize energy consumption and maximize ecological conservation, the vacuum uses up to 33% less energy, is made with 55% recycled plastic and consumes an astounding 90% less energy during production.

In 2008, the vacuum with top-rated cleaning performance UltraOne was introduced. Among one of the most silent vacuum cleaners in the market, the UltraOne's well-thought designs makes way for convenience in handling.

Notable Recognitions

Demonstrating true excellence in forefront design and innovation Electrolux received numerous acknowledgements for the solid devotion to consumers. Whether if it's product, design or consumer orientated, Electrolux has consistently been recognized as the winner.

2005 : The Electrolux Oxy3system Vacuum Cleaner and Electrolux Ergorapido 2-in-1 Instant Vacuum Cleaner won the Red Dot Design Awards as the 50th edition of the Red Dot Design awards competition.

2006 : The Electrolux Ergorapido Vacuum Cleaner received the Swedish Good Design Award.

2008 : The Electrolux UltraSilencer Green Vacuum Cleaner was awarded the prestigious inspiration prize by The Swedish Recycling Industry Association. It was the first environmentally-profiled vacuum cleaner on the market.

: The Electrolux Energica and the second generation of Ergorapido 2-in-1 Vacuum Cleaner were also awarded the iF Design Award, organized by International Forum Design in Hannover, Germany.

2009 : The Electrolux UltraOne Vacuum Cleaner received the Best in test in consumer reviews in 5 consecutive countries; Sweden, Denmark, Norway, Finland and Czech Republic.

2010 : The UltraOne Vacuum Cleaner received the iF Design Award. Up to 2,500 products from 39 different countries took part within this competition. The UltraOne Vacuum Cleaner was one of the 778 products to receive the award.

: The Electrolux Ergorapido Vacuum Cleaner was rated category winner in performance test conducted by the independent German test institute SLG. The World's most sold battery-driven Vacuum Cleaner outperformed its' main competition in three of four categories.

: The Electrolux Ergorapido Vacuum Cleaner was awarded two international design awards for sleek design. Winner of the Red Dot Design Award and the iF Design Award.

: Electrolux Vac from the Sea campaign was the winner of five European PR Awards; two European Excellence Awards and three Eurobest Awards.

Bagless Vacuum Cleaner

2011 : The Electrolux UltraOne Vacuum Cleaner received the prestigious Plus X Award which was further honored with Best Product of the Year 2011 Award for High quality design and ease of use.

: The Electrolux Ergorapido handheld Vacuum Cleaner won the Plus X Award for High quality, design, ease of use and ergonomics.

: Electrolux received an IPRA Golden Award from the United Nations for Vac from the Sea, a project with the aim to raise awareness about global shortages of recycled plastics. The project was launched since June 2010. The IPRA Awards was initiated by the United Nations in collaboration with the International Public Relations Association (IPRA) to address most expertly those issues of concerns to the United Nations.

2013 : The Electrolux UltraOne Mini Vacuum Cleaner achieved an outstanding result in this year's Red Dot Design Award.

2014 : The Electrolux Ergorapido, UltraOne, and Rapido Vacuum Cleaner received the international Plus X Awards.

: The Electrolux Ergorapido Vacuum Cleaner also was the winner of the Best Product of the Year, Awarded by Plus X. The award truly recognizes innovative technologies under the sports and lifestyle product type. It was judge against category pillars namely; innovation, quality, design, ease of use, functionality, ergonomics and ecology.

: The Electrolux Ergorapido, Ultracaptic, UltraOne and Rapido Vacuum Cleaner we all winders of the Red Dot Awards.

: The Electrolux Ergorapido Vacuum Cleaner was the winner under the 'Best of the Best' category by Red Dot Awards which recognized Ergorapido as the product with groundbreaking design.

2015 : The Electrolux UltraFlex Vacuum Cleaner was given the category winner from Plus X Award. With the UltraFlex's twin-inlet channels, its' design optimizes airflow and suction for effective removal of dust and dirt.

: The Electrolux UltraFlex Vacuum Cleaner wins the Red Dot Design award for product of the year.

Electrolux Ultraflex cleans all corners that have never been reached before. With its unique design of an impeccably flat nozzle and a 180° rotation that will allow reach under furniture as low as 5 cm. Along with the HEPA 13 Filter with carbon layer that ensures a **0.00% dust escape**, Electrolux UltraFlex is the perfect cleaning solution.

EXCELLENT

Performance

ZUF4306DEL

FLEXPRO PERFORMANCE SYSTEM

A UltraFlex™ offers excellent performance thanks to the powerful Turbo Cyclonic Technology which efficiently separates the dust from the air.

B The aerodynamic surface of the twin inlet channels drive airflow inside the Turbo Cyclone.

With FlexPro Performance system, UltraFlex™ truly delivers a superior cleaning result to your home.

CUTTING EDGE FLEXPRO PLUS NOZZLE

UltraFlex™ boasts an extremely flat FlexPro Plus nozzle that can reach under furniture as low as 5cm and can achieve a true 180° turnability.

FlexPro Plus™ nozzle is the only nozzle in the market certified by SLG Germany to achieve 5 stars in Edge Cleaning on Hard Floor. That means, 0% dust left on edges and 100% dust pick-up on hard floor.

SMART ERGONOMICS FOR ULTIMATE CLEANING CONVENIENCE

Longer Reach

With 12 meters Ultra Long Reach, UltraFlex™ has a longer Action Radius than average competitors.

Slim Remote Control

To ensure a more convenient, easy, and enjoyable cleaning experience.

SUPERIOR

Dust Filtration

EXCELLENT FILTRATION

UltraFlex™ captures 99.999% of dust particles and allergens. It has been tested by SLG Germany with the result of 0.00% dust emission.

With its high-performance filtration, UltraFlex™ has been approved and endorsed by British Allergy Foundation for households sensitive to asthma and allergies.

ODOR-FREE HOME

With HEPA 13 Washable Exhaust Filter and Replaceable Carbon Layer, odors are absorbed and foul smells are reduced.

ADDITIONAL ACCESSORIES

BedPro™ Nozzle for a better dust pick-up performance on bed and mattresses capturing dust mites and allergens.

3-in-1 Nozzle gives you the ultimate flexibility in having brush, crevice, and upholstery tools ready in one nozzle.

Unique Clip-on-hose Tool reduces the storage space as the hose is hooked on the clip while also storing the 3-in-1 nozzle.

CONVENIENT DUST DISPOSAL

It allows you to empty dust container in just two steps. A hygienic and convenient way without also physically touching the dirt.

*Tested by independent test institute SLG Prüf - und Zertifizierungs GmbH in May-June 2014, according to international standards IEC 60312.

SILENTPERFORMER™ CYCLONIC

The Power of Silence

Featuring the smart innovations of Silence Pro System™, the Electrolux SilentPerformer™ is the only bagless canister vacuum which delivers powerful deep cleaning performances whilst sustaining minimal noise - 75dB(A) noise level. MobiONE is lightweight, powerful, compact in size and is ideal for even the smallest space, it can be stored tidily out of the way. MobiONE vacuum cleaner really gets the job done - effortlessly!

ZMO1521M

Powerful
Compact vacuum cleaner, you still get the performance of a bigger product with powerful 1400W motor.

Lightweight
For easier handling.

Compact size
It will easily fit into a small place thanks to its compact size and choice of two parking clips.

ultrasilencer™ **GREEN**™
Quiet, powerful, yet green

ZUSG4061

Powerful Suction and Optimised
Airflow at Minimal Noise

From nozzle to outlet, the airflow has been sealed to deliver a powerful suction and high filtration efficiency. The wide and smooth channels of the AeroPro™ nozzle system and hose creates a high, optimal airflow which picks up dust and dirt at minimal noise levels.

More importantly, the HEPA sealed filtration system not only traps tiny dust particles and allergens, but also cleans exhaust air by more than 99.99% as certified by SLG. Making this the best vacuum cleaner for people sensitive to dust and love the hygienic convenience of a bagged cleaner.

UltraSilencer™ Green™

The most silent vacuum, allowing you to do things you never thought was possible, like talking on the phone or vacuuming around your sleeping kids. In addition, it is as effective as a 2000W nominal vacuum yet eco-friendly, saving resources and energy.

ZUSG4061

AeroPro™ Silent Air Technology™ nozzle

A Designed with sharper edges for optimal dust pick-up

AeroPro™ hose

B Smooth inner profile reduces noise without compromising on flexibility

Sound Shield™

C Noise protective Sound Shield™ further reduces noise from air leakages

The Green concept

Eco power

50% lower energy consumption* due to the energy efficient motor.

*compared to a 2000W nominal vacuum

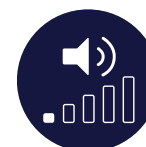

Made from recycled materials

Made from 55% recycled plastic, which means less energy is used to produce it.

It is also 92% recyclable. Even the packaging is made from recycled paper.

Designed for a cleaner, quieter world

Silent Air Technology™

Advanced development of Silent Air Technology™

- New AeroPro™ Silent nozzle
- New silent AeroPro™ hose
- Sound Shield™ dust bag holder and motor filter frame

Excellent cleaning performance

Lowering noise without compromising on performance, i.e. high performing level of dust-pick up on both carpet and hard floor with AeroPro™ Silent Air Technology™ nozzle and AeroPro™ hose

Aeroprotm 3-in-1 brush nozzle

Ready for versatile cleaning with dust brush, crevice and upholstery nozzle. With additional improved features of more efficient fibre pick up by +40% and reduce noise level by 8dB(A).

Also available

ZB3107

**2in1 with pop-up
handheld unit**

**Unique brush
cleaning function**

**180°
maneuverability**

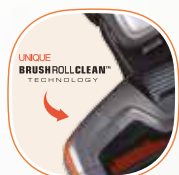

**Self
standing**

2in1 with pop-up handheld unit

When you have a variety of cleaning jobs to do, the new Ergorapido® is designed to provide the cordless convenience of a powerful floor cleaner with 2 power settings that allows for regular long-run time cleaning mode and a power quick cleaning mode. To clean shelves, table surfaces and upholstery, simply remove handheld unit and switch it on. In addition, attach the relevant accessories to the handheld for more effective cleaning of hard to reach area and delicate surfaces.

Unique brush cleaning function

Electrolux consumer studies show that people find it frustrating when hair and fibers get stuck in the brush roll. Not only are they unpleasant to remove, they also reduce cleaning performance. Simply press the BRUSHROLLCLEAN™ pedal for a few seconds and tangled hairs and fibers from the brush roll will be cut and sucked up into the dust container. Enjoy the benefits of maintaining the high vacuum performance while eliminating the annoying task of cleaning the brush roll.

Self standing

Do you need to answer the door or pick up the phone? The self standing design of Ergorapido® allows you to leave it in an upright position whenever you need to take a break from cleaning. You can even remove the handheld and leave the cleaner in the upright position should you wish to continue to clean the furniture.

180° Maneuverability

Clean the home effortlessly because the 180-degree swivel nozzle head and ergonomic lightweight design allows you to glide the vacuum across the floor and steer around tight corners and under furniture easily. The new bigger rear wheels are designed to deliver an improved cleaning maneuverability when cleaning low-pile carpets, soft surfaces and mats.

dynamica

Discover a New Way to Clean

Dynamica is a bagless vacuum cleaner that is much more powerful and less hassle comparing to a broom. It will bring you a convenience and comfortable cleaning experience on any surface. Discover the new, hygienic and easy way to keep your home cleaned.

Steer around furniture with a light twist of the handle.

Motorised floor nozzle makes vacuuming easier on all floor types.

It prevents dust particles from circulating back into the air.

Get the power of a corded cleaner in a compact shape.

ZS320
